

Thank you for choosing a
GUL Pro watch!

...clean and powerful design!
...a sporty, but at the same time dressy
and elegant appearance!
...something to wear on all occasions!
...all stainless steel and 10 ATM water
resistance!
...scratch resistant sapphire crystal!

GUL Pro 1.28 and Pro 1.38

Functions: Analogue time and date.

Setting the time: Pull the crown all the way out. Adjust the hands to correct time.

Setting the date: Pull the crown half-way out. Adjust to correct date.

Advance the hands 12 hours if the date shifts at 12 AM.

GUL Pro 1.35

Functions: Analogue and digital time, alarm, chronograph, date, light and chime.

Buttons: **S1** is upper left, **S2** is lower left, and **S3** is lower right.

S1: Changes function every time it is pressed. In order: time, alarm, stopwatch and date.

S2: Decides which part of the function that can be changed.

S3: Adjusts blinking part of function.

Setting the digital time: Press **S2** for approx. 3 sec, then **S3** exactly when the seconds should be "00". Press **S2** again and use **S3** to advance the minutes. Repeat for hours and 12/24 h time.

Setting the analogue time: The crown is pulled out to adjust the hands to correct time.

Setting the alarm: Press **S1** once for alarm "AL". Press **S2** followed by **S3** to adjust the hours. Repeat for minutes. The alarm is turned on/off with **S3**. The alarm symbol is visible when the alarm is activated.

Setting date/weekday: Press **S1** until month, date and day appears. Press **S2** until the days flash. Set with **S3**. Repeat for months and weekday.

Stopwatch: **S3** starts and stops. **S2** returns it to 0 (only when stopped with **S3**).

Split times are stopped and restarted with **S2**, "SPL" is indicated.

Chime: Press **S2** and **S3** simultaneously when time function is active to turn chime function on/off. The chime symbol is visible when chime is active.

Light: The digital display is lit when **S3** is pressed.

Battery: Normal life is about 2 years.

Water resistance: 10 ATM (for all watersports except scuba-diving).

A new statement from *GUL*!
